ABOUT US

SINAMM ENGINEERING LIMITED named as SINAMM was conceived and formed in the year 2004 by a team of qualified Engineers and other professionals possessing long standing experience in various fields of Constructional activities with a vision and mission and to play a significant role in development and construction sector in near future.

Construction, more than any industry, is indeed a service-profession, the lure of becoming a civil engineering contractor attracts many, but not all can survive this challenges. Many give up due to lack of experience or inability to tackle the hazards involved. SINAMM has started the journey to take these challenges and is determined to exist its excellence in the field of construction such as buildings, industry and infrastructure projects through innovative planning and employing latest techniques with continuous advancement. We believe that our dedication, commitment, technical superiority, experienced human resources and collective management efforts will ensure quality, accuracy and timely completion of woks for the prospective clients.

The top management of SINAMM during the tenure of last 21 years played the key role in the field of construction through Planning, Evaluation, Tendering, Monitoring, Supervision & Execution of industrial building, Power plants, High-rise Apartments, Office buildings, Commercial buildings, Roads and Highways projects, Water supply, Sanitation and Deep tub well projects.

Finally, keeping pace with rapid economical and technological changes, we are determined to put ourselves in the front line of Construction sector through our works in future to build a planned, productive and healthier environment around us. SINAMM Engineering Limited believes in teamwork. We feel proud to have a very strong team and we are confident to achieve our goals and objectives with accuracy. We are dedicated to provide most efficient and effective skills in the Country. We are working continuously to improve our system to provide best and efficient services to our clients and also to match with the upcoming days.

FIELD OF SPECIALIZATION OF
MANAGEMENT TEAM

SINAMM ENGINEERING LIMITED

FIELD OF SPECIALIZATION OF MANAGEMENT TEAM

A project is considered as a group of activities having inter-relations which may include the role of specialists and specialized work using the latest knowledge and skill available to be undertaken in the most systematic manner. We have wide experience in construction management and project implementation in last 22 years. In past two decades we achieved the followings successfully with optimism courage and good judgment.

- ☐ *Architecture, Engineering, Planning, Designing, Cost estimation & work execution.*
- ☐ *Planning, Programming, Organizing, Staffing, Scheduling, Monitoring & Controlling of Project.*
- ☐ *Architectural, Structural, Sanitary & Plumbing and Electro-Mechanical Design work.*
- ☐ *Sub-soil Investigation work.*
- ☐ *Planning, Design & Implementation of Central Air Condition Plant & Fire Fighting System.*
- ☐ *Planning, Design & Implementation of High Voltage Transmission Line.*
- ☐ *Execution of Grid Sub-station with Engineering Management.*
- ☐ *Execution of Power Plant with Engineering Management.*
- ☐ *Planning, Design, Procurement of Land and execution of High-rise Commercial Building.*
- ☐ *3 (Three), 2 (Two) & Single level Basement construction work with total Engineering solution.*
- ☐ *Factory Building Construction with Architectural, Structural Design using Pre-Engineered steel roofing system.*
- ☐ *Construction of Deep Tubewell & Irrigation project.*
- ☐ *Construction of Road, Highway with total Engineering Management.*
- ☐ *Construction of water treatment & effluent treatment plan.*
- ☐ *From 6 to 25 storied Apartment Building Construction work.*
- ☐ *Job organization, equipment deployment and maintenance, quality control, office administration, accounting techniques, legal aspect, employment & labour relations, public relations, safety rules & regulations, willingness to work almost round the clock, ability to organize team work, delegate, responsibility and give due to importance to the key personnel.*
- ☐ *Ambassador Residence construction work under foreign mission.*
- ☐ *Form site hunting to BASE TRANSCIEVER SWITCH (GTS) including telecommunication tower erection work under mobile phone service provider.*
- ☐ *Interior design and execution work for both residential apartment and commercial building.*

PROJECT MANAGEMENT

SINAMM ENGINEERING LIMITED

PROJECT MANAGEMENT :

SINAMM believe in adoption of techniques in a systematic manner to control the project activities within the time frame maintaining highest quality of works. A dynamic and experience management team are working continuous and constantly adopting new techniques and methods in construction works with the aid of Planning, Scheduling, Plans and machinery to make construction easier, well within time schedule and of high quality. The application of computer software in construction management techniques, the use of plants and machinery, fixing alternative solutions and selecting the possible solution have made our project activities more smart and scientific.
